POLYCOM®

Polycom® CX200 Desktop Phone
Optimized for Microsoft® Lync™

Enhance the unified communications experience with superb call quality.

The Polycom® CX200 desktop phone significantly enhances the overall communications experience by combining high definition and high fidelity audio for crystal clear conversations. It also offers the convenience of a plug-and-play USB audio peripheral that is tightly integrated with Office Communicator 2007.

The Polycom CX200 desktop phone gives users the ultimate in calling convenience from their Microsoft Lync-enabled computer. With its sleek, high-quality handset and its full duplex, hands-free speakerphone,

the Polycom CX200 desktop phone enables crystal-clear, natural conversations without echoes or feedback. Enjoy the freedom of not wearing a headset for hands-free calls, or the privacy and familiarity of the handset, all using the latest in wideband audio technology to provide the highest quality audio experience.

The Polycom CX200 desktop phone includes keys for controlling volume, mute speakerphone mode and use of an external headset. LED indicators provide the user with call forwarding status and message waiting indication. A large LED conveys the presence status of the user. The Polycom CX200 desktop phone connects and powers through an integrated USB cable for easy installation and use, so there are no extra cables to carry.

Polycom and Microsoft Solutions

Polycom offers the most comprehensive voice and video collaboration solutions for Microsoft Unified Communications environments. Polycom and Microsoft provide a fully unified, intuitive set of collaboration solutions that enables individuals and groups to instantly see, hear, and talk with colleagues around the world. The result is improved collaboration, streamlined operations and faster more informed decisions. Visit www.polycom.com/microsoft to learn more.

Benefits

- **Ease of provisioning** – Seamlessly integrates with and complements the capabilities of Microsoft Lync

- **Hands-free freedom** – Hands-free, clear one-on-one calls or group conversations with full duplex speakerphone mode

- **Superb voice quality** – High-quality, high definition wideband audio for the best possible voice call quality

- **Enhanced presence indicator** – Monitor presence status to efficiently route calls

- **Intuitive to use**
  - Convenient buttons and integrated functionality to pick up and hang up calls, control volume, switch between handset and speaker phone mode and mute the microphone on the active call
  - Calls forwarded, voicemail and message waiting indicators keep users up to date with their communication service status
  - Plug-and-play operation to a USB port on the PC

OPTIMIZED FOR
Microsoft® Lync™
